

Call for participants

BauNOW Angel Investor Capacity Building Programme: “Train the Angel Trainers”

Ready to put smart capital to work—earning returns while accelerating the green & just transition, a fair and inclusive shift to a low-carbon economy?

The **Angel Investor Capacity Building Programme** equips new and emerging business angels to confidently invest in climate- and impact-driven ventures, while building a value-aligned investor community that lasts beyond the course.

Format & commitment:

Seven live online workshops (weekly, afternoons, up to 3 hours each), plus optional local networking meetups. Expect interactive learning, practical tools, and hands-on exercises (including simulations). Complete the programme and stay connected through ongoing ecosystem opportunities.

What you'll cover (fast, practical, investor-real):

Startup evaluation & due diligence, deal structuring and term sheets, ESG & impact investing, portfolio strategy and exits, investment simulations, and co-investment / network-building.

March 19—May 7, 2026

15:00 CET

ONLINE

[**REGISTER NOW**](#)

BauNOW project

The programme is designed within the **BauNOW** project in response to identified ecosystem needs. The BauNOW project is helping territories across the Euro-MED area turn green ambitions into real, financed action. One stubborn bottleneck is early-stage “smart capital” - funding (and know-how) that helps promising startups cross the infamous “valley of death” and actually scale.
